## For Growers – represented crops

Please note: the individual crop acreages of Member farms are confidential; however, in preparation for program development and statistics, HNS is often asked to provide to government the overall acreages for our represented crops. **For our database only**, please provide actual acreages for the crops you grow.

The following are the crops represented by Horticulture Nova Scotia; please enter your relevant acreages:

| Blackberries   | Berries  | Cucumber,                            | pickling          | Scallions (green onions)    |  |  |
|--|--|--------------------------------------|-------------------|-----------------------------|--|--|
| Strawberries   Greens (potherbs):  | Blackberries   | Eggplant (a                          | ubergine)         | Garlic                      |  |  |
| Highbush blueberries   | Raspberries  | Fennel                               |                   | Shallot                     |  |  |
