McCain Farms of the Future Tour

Thank you to everyone who joined us for the McCain Farms of the Future tour! It was a great opportunity to learn more about the sustainable practices McCain is implementing on the farm such as controlled traffic farming, chisel plowing, and cover cropping.

The full-day tour was highly informative, showcasing practices and technologies that can be applied on farms here in Nova Scotia. See below for a few photos from the day!

Precision Agriculture Field Day at Dalhousie - Register now!

Smart Farming Showcase: Precision Agriculture Field Day

Wednesday, August 26
9:30 am – 2:30 pm
Registration deadline is
August 10

This one-day, in-person workshop brings together producers from across Nova Scotia's horticulture, Christmas tree, sheep, and cattle sectors for a collaborative Field Day focused on the future of farming.

Join HNS and partners on August 26th at Dalhousie Truro Campus to learn of innovative precision agriculture research that can be applied on-farm! This event will involve demonstrations and a chance to engage directly with researchers to learn of practical tools and technologies designed to enhance sustainability, efficiency, and productivity across diverse agricultural sectors.

Register [here](#) by August 10th!
